

Master of Science (MSC) in Petroleum Geology
Laurea Magistrale in Geologia degli Idrocarburi
A.Y. 2015-2016

Family Name and Name _____ Student code (matricola) _____

E-mail address _____ Tel. n. _____

Deadline by 29th February 2016 (for students enrolled in Academic Year 2015-2016)

I year

<i>Educational Activities</i>	<i>SSD</i>	<i>Courses</i>	<i>notes</i>	<i>CFU</i>
characterizing	GEO/02	Sedimentology	☑	9
characterizing	GEO/10	Applied Geophysics	☑	6
characterizing	GEO/03	Global Tectonics	☑	6
characterizing	GEO/02	Integrated Stratigraphy	☑	6
characterizing	GEO/10	Seismic Interpretation	☑	6
characterizing	GEO/08	Applied Geochemistry	☑	6
characterizing	GEO/03	Structural Geology	☑	9
1 optional course*	-----			6
Additional training activities (art. 10, comma 5, lettera d)				
Job training and guidance	Geological Field Trips		☑	3
Other useful knowledge for entering the world of job	ENI Seminars		☑	3

II year

<i>Educational Activities</i>	<i>SSD</i>	<i>Courses</i>	<i>notes</i>	<i>CFU</i>
characterizing	GEO/02	Petroleum Geology – mod. 1 (Exploration and Petroleum System	☒	6
	GEO/03	Petroleum Geology – mod. 2 (Petrophysics and Reservoir Geology)		
related and additional activities	GEO/04	G.I.S. – Geographic Information Systems	☒	6
related and additional activities <i>Please choose one of the two courses listed by ticking the option.</i>	GEO/01	Micropaleontology	☐	6
	GEO/05	Hydrogeology	☐	
1 optional course*	-----			6
Additional training activities <i>(i.e. art. 10, comma 5, d)</i>				
Other useful knowledge for entering the world of work	ENI Seminars		☒	3
For the final exam	Final stage and thesis		☒	27

As for the optional courses, students can choose among all the teaching courses not otherwise used in the *MSC – Petroleum Geology* curriculum, as well as courses activated in the *Laurea Magistrale in Scienze e Tecnologie*

Master of Science (MSC) in Petroleum Geology
Laurea Magistrale in Geologia degli Idrocarburi
A.Y. 2015-2016

Geologiche. Students can also choose among all the teachings activated at Perugia University, provided they are consistent with the *Master of Science (MSC) in Petroleum Geology* training curriculum. Consistency will be evaluated by the CCCS (Didactics Committee).

Curriculum that will include the teachings listed below will be considered automatically approved. The CCCS can also recognize under *Additional Training Activities* (i.e. art. 10, comma 5, d) educational activities which do not correspond to teachings, for ex. additional language skills, computer skills, study periods abroad, up to the maximum of 12 credits.

*** Optional courses available by Academic Year 2015-2016:**

- **Sedimentary Petrography,**
- **Reservoir Geology.**
