

Laurea Magistrale in Fisica @ unipg

Onde Gravitazionali

A.D. 1308

UNIVERSITÀ DEGLI STUDI
DI PERUGIA

14 aprile 2022

dott. Mateusz Bawaj

mateusz.bawaj@unipg.it

Nella presentazione

- lavoro scientifico
- argomenti tesi
- corso di Multi-messenger

gruppo di ricerca “Virgo”:

- prof.ssa M. Orselli
- prof.ssa S. Corezzi
- prof. G. Grignani
- prof. H. Vocca
- dott. M. Punturo
- dott. G. Greco
- dott. M. Bawaj
- ...

Rivelatore di Segnali gravitazionali

la cosa che abbiamo

che cosa immaginiamo

interpretazione artistica
del telescopio di James Webb

abbiamo quasi un sismografo

Il nostro rivelatore!

 VIRGO

Cascina (PI), Italia

 INFN

Rete di rivelatori

 VIRGO

 LIGO

 KAGRA

Einstein Telescope

il meglio deve ancora venire!

La sfida attuale – caccia ai rumori

miglioramento
del rivelatore
+
noise hunting

rumori:

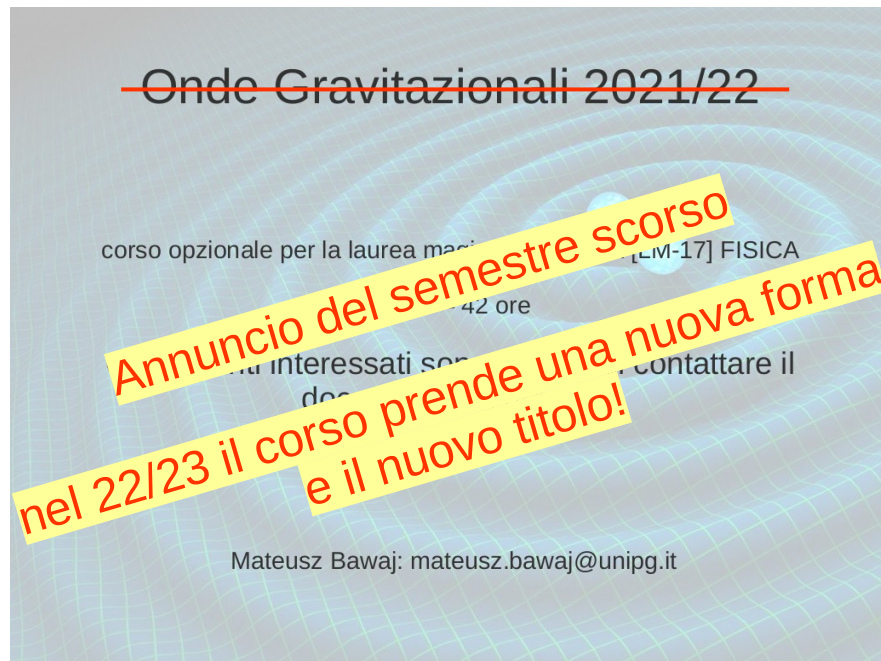

- Newtoniano
- delle sospensioni
- termico
- stray light e scattered light
- elettronico
- quantistico

Astrofisica multi-messaggio: dalle onde gravitazionali ai raggi gamma

corso opzionale di 42 ore – 6 CFU

docenti del corso:

- Mateusz Bawaj
- Sara Cutini
- Giuseppe Greco

[Da controllare presto su: Offerta formativa](#)

Argomenti tesi

Abbassamento del rumore quantistico
nella rivelazione delle
onde gravitazionali
(sia per Virgo che per ET)

Metodi non-perturbativi di
caratterizzazione dei risonatori
meccanici

- Altri:
- teorici
 - sperimentali
 - ingegneristici

In futuro possibilità di dottorati e post-doc

Rumore quantistico

Our facility on Virgo site

High efficiency Second Harmonic Generator (SHG)

Fully digital controls

Mode cleaner cavity

Homodyne detector

Mach Zehnder interferometer

Rumore delle sospensioni

Rumore del coating
